I have been a Veterinarian since 1994. After coming to this country, I had a dream of starting an affordable quality animal hospital. With today's difficult economic problems, my dream has become even more important. Pet owners are facing difficult times and need affordable high quality pet care. Pets should not have to suffer because health services are too expensive.

My dream of providing quality affordable pet care has finally come true!

**We will beat any veterinarian written quote  
for quality Pet Care.**
